SUMMARY

Dedicated, hard-working, reliable, detail-oriented individual looking for a career path in Data Analytics. I have excellent communication skills, can multitask and work under pressure.

EDUCATION

University of Texas at Dallas - August 2021–Spring 2023

- Undergrad college classes; pursued a degree in Biochemistry

The International School of Lusaka - August 2017–May 2021

- Graduated as an International Baccalaureate Diploma recipient

DATA ANALYTICS TRAINING

Data Analytics Certificate Course, **Break Into Tech**

SQL: Querying and Managing Data, **Khan Academy**

Tableau Creator, **Tableau**

MY PROJECT EXAMPLES - DATA ANALYTICS & VISUALIZATION

- **Product Revenue Dashboard.** Identified stores with the lowest and highest sales rates, quantified revenue by product, and identified average revenue by account; published a Tableau dashboard to track KPIs.
- **COVID-19 Rates Dashboard.** Quantified COVID-19 vaccination rates over time, by country, and by income group; published a Tableau dashboard to visualize results.
- **Superstore Sales and Profitability Executive Dashboard.** Quantified sales, profitability, profit ratio, and sales per customer. Visualized profit ratio by city on US map. Quantified monthly sales by segment and category over time by profitable vs. unprofitable orders.
- **Computer Electronics Store Database Design.** Designed a computer electronics store database using SQL and analyzed statistics by product.
- **Chinook Analytics.** Used SQL to explore various statistics across the database, such as querying all invoices grouped by sales agent, finding the total sales for a certain year, and identifying which sales agent made the most revenue.
